### Technical skills

- **Languages:** C/C++, Python, HTML, CSS, JavaScript, SQL, Java, PHP, currently learning Golang
- **Tools & Methodologies:** Git, GitHub, GitFlow, Docker, Linux, REST APIs, Agile/Scrum

### General skills

- Creative problem solver, able to contribute original ideas to technical challenges.
- Strong mediation and communication skills, facilitating smooth teamwork and collaboration.

## Languages

- **Catalan/Spanish:** Native
- **English:** High level (spoken and written), 5+ years at St. Paul's English Academy

## PROJECTS & EXPERIENCE

### 2025

#### Portfolio Website

A basic portfolio website showcasing my recent projects and skills.

### 2023

#### CronoFIB

Developed a web application for generating and visualizing university schedules, integrating the official UPC API.

### 2019-2020

#### Game Jams Submissions

Developed multiple games submitted to Game Jams that launched my interest in learning computer science.

## EDUCATION

### 2021 – 2026

#### B.Sc. in Computer Engineering — Software Specialization

Polytechnic University of Catalonia (UPC)

Currently in my 4th and last year

### 2018 – 2020

#### Scientific–Technological Baccalaureate

Col·legi Sant Josep, Sant Sadurní d'Anoia
